

At Allstate Paper Box Co. our mission is to exceed our clients' expectations by focusing on innovative design, carefully selected materials/printing techniques and efficient structures at our strategically located domestic facilities.

As a leading manufacturer of sustainable packaging solutions, we are committed to reducing waste and promoting sustainability in every aspect of our operations.

Through embracing environmentally-conscious practices, implementing rigorous ethical standards, and investing in pollution reduction initiatives across our facilities, our company ensures that its commitment to sustainability is preserved throughout our supply chain.

Eco-friendly Materials and Practices

RECYCLED MATERIALS

We use recycled paper and board for packaging products, reducing waste and conserving natural resources

ENERGY-EFFICIENT PRODUCTION

We have implemented energy-efficient manufacturing processes, such as using LED lighting and optimizing machinery, to minimize our carbon footprint

RENEWABLE SOURCING

As an FSC Certified Company, we source raw materials from responsibly sourced forests, ensuring a continuous supply of renewable resources

RESPONSIBLE WASTE MANAGEMENT

We have a comprehensive waste management system in place, recycling and properly disposing of any non-recyclable materials generated during production

ALLSTATE PAPER BOX'S USAGE OF RESPONSIBLY SOURCED MATERIALS AND PRACTICES DEMONSTRATES A DEDICATION TO MINIMIZING OUR ENVIRONMENTAL IMPACT AND PROMOTING A MORE ECO-FRIENDLY FUTURE

We have an integrated waste management system that ensures efficient collection, storage, and disposal of waste materials. This includes the use of specialized equipment and protocols to minimize environmental impact

✓ **WASTE REDUCTION INITIATIVES**

Allstate Paper Box actively promotes and implements initiatives to reduce waste generation at the source, such as optimizing packaging, encouraging reuse, and implementing lean manufacturing practices

✓ **EMPLOYEE ENGAGEMENT**

We actively engage with employees in our recycling and waste management efforts, by providing training and incentives to encourage adoption

✓ **CONTINUOUS IMPROVEMENT**

Allstate Paper Box is committed to continuously reviewing and improving its recycling and waste management practices, exploring new technologies and best practices to further enhance its environmental performance

Benefits of Domestic Production

MADE IN AMERICA

We take pride in being Made in America. Having a diverse workforce while being Urban Enterprise Zone Certified, allows us to help the local economy while ensuring ethical labor and production practices

LABOR

We are committed to fostering a healthy work environment through strict compliance with U.S. labor laws & environmental regulation, providing training to all employees, and hosting a multitude of employee engagement events

IMPLEMENTING CIRCULAR ECONOMY PRINCIPLES

Our R&D efforts focus on designing packaging that can be easily recycled, reused, or repurposed, promoting a circular economy approach

REDUCING CARBON FOOTPRINT

Our initiatives aim to develop manufacturing processes and materials that have a lower environmental impact, while meeting our clients needs

EXPLORING INNOVATIVE MANUFACTURING PROCESSES

We are constantly researching and testing new manufacturing techniques to minimize waste, reduce energy consumption, and enable the production of sustainable packaging solutions

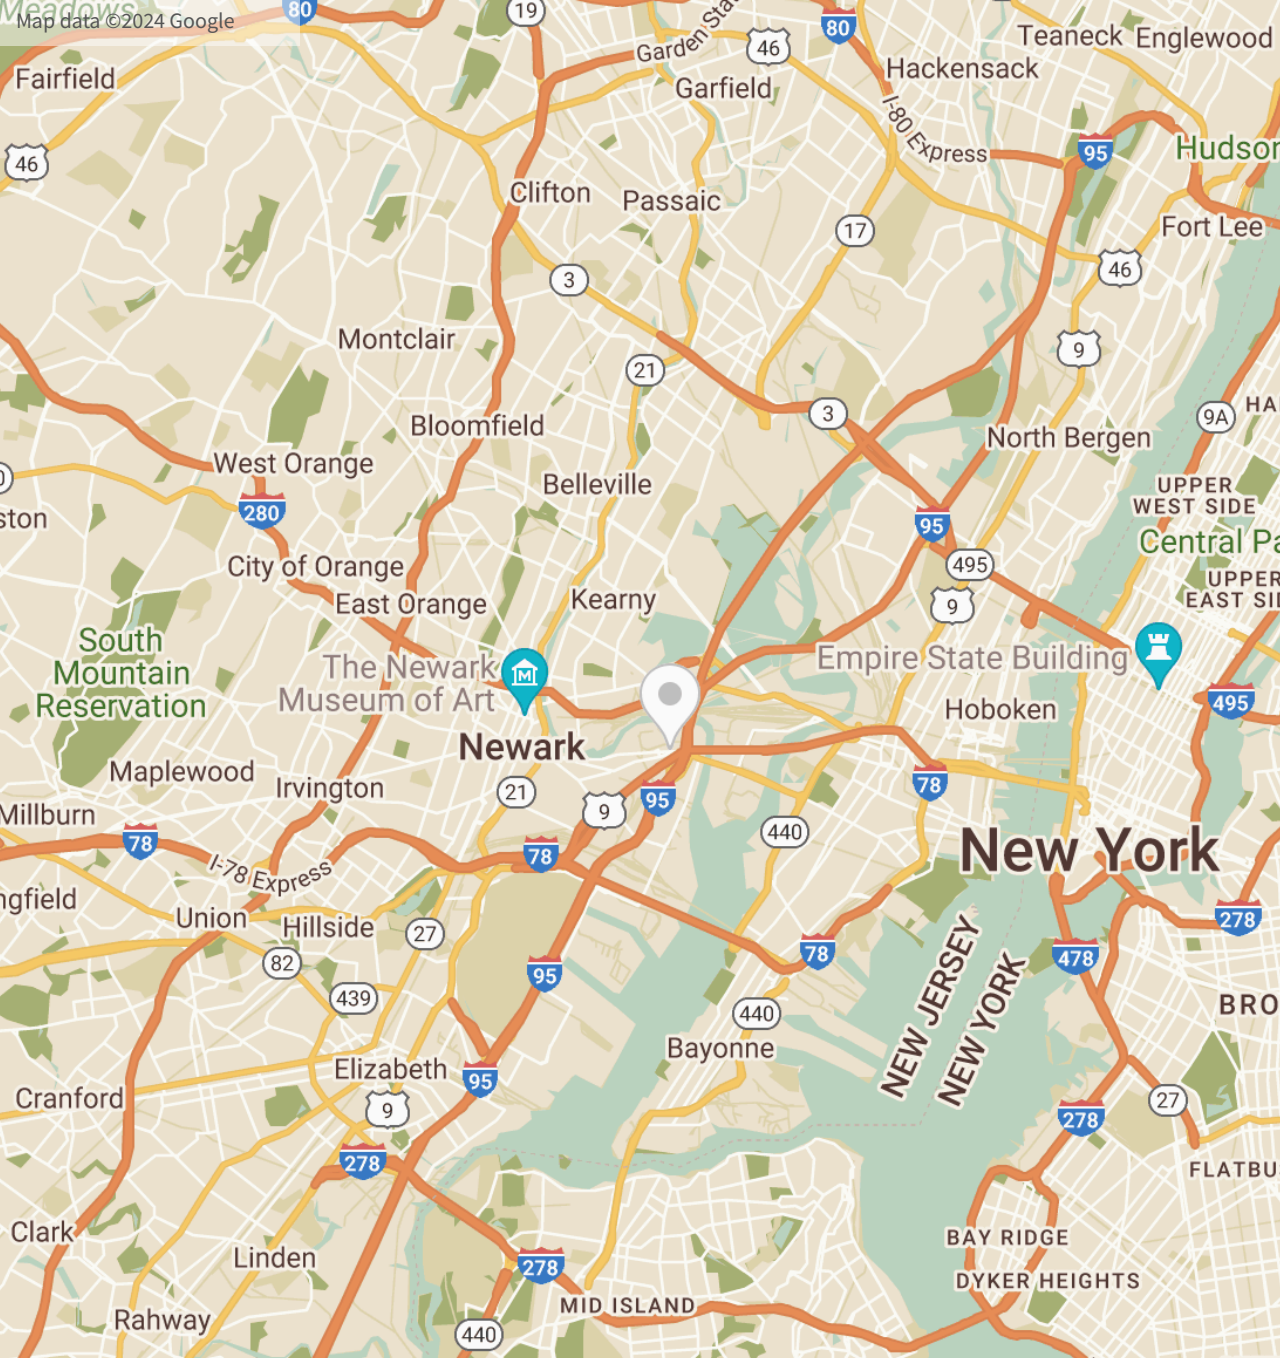

INVESTING IN SUSTAINABLE MATERIALS

We have dedicated a significant portion of our R&D budget to the development of eco-friendly, biodegradable materials for our packaging products

At Allstate Paper Box, sustainability is at the heart of our operations. Through our environmental initiatives and partnerships, we are committed to reducing our carbon footprint and promoting a greener future. Together with our customers and community, we strive for sustainable excellence in manufacturing and beyond.
